

# Environmental Targets 2020 & Performance 2014

## Overview of current status

Schindellegi, May 2015

# The focus of the Environmental Targets 2020 is to reduce our global footprint

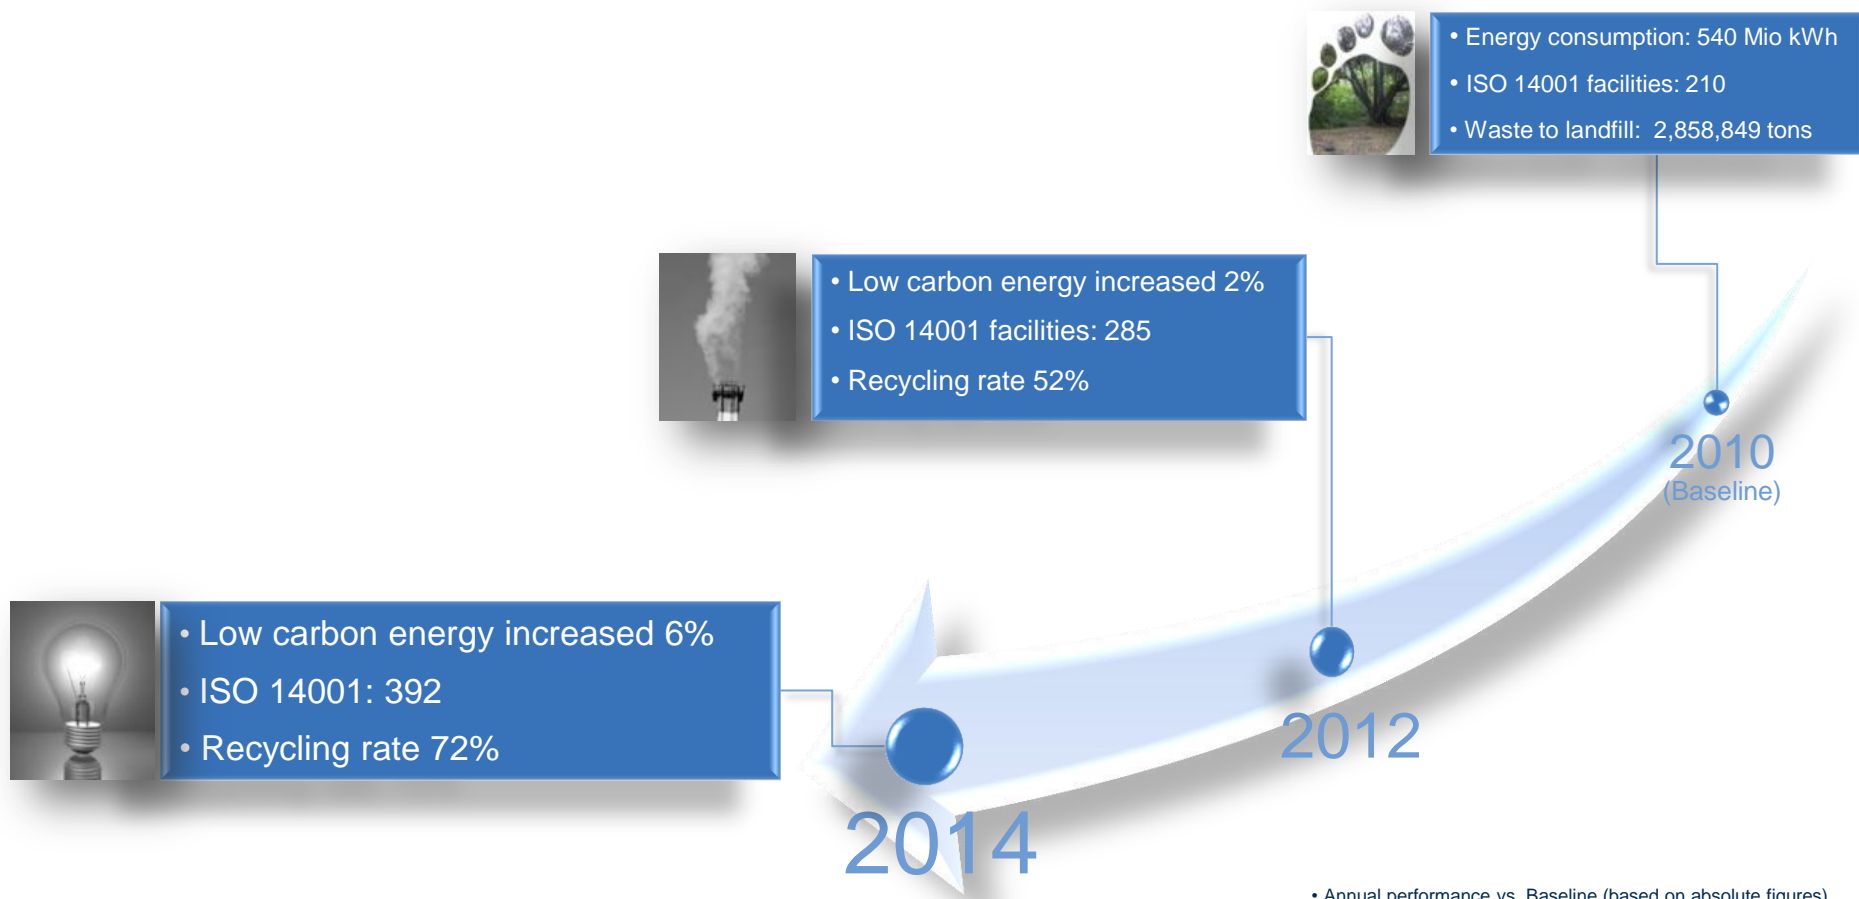

CO2	Fuel	Electricity	ISO 14001	Recycling
				
<b>15%</b> CO <sub>2</sub> from KN sites* will be reduced by 15% per FTE and per 100m <sup>2</sup>	<b>1%</b> KN will improve 1% in fuel intensity each year	<b>10%</b> Usage of electricity from low carbon sources will reach 10%	<b>100%</b> 100% facilities with ISO 14001 certification or certification renewals	<b>75%</b> KN will increase recycling to 75% as a percentage of all waste

\*Site = defined as a KN location having at least 15 persons employed and/or an area > 800 m<sup>2</sup>

\*Facilities also need Management approval to be ISO 14001

# The Environmental Performance continuously improved since the baseline 2010

• Annual performance vs. Baseline (based on absolute figures)

# The Environmental Performance continuously improved since the baseline 2010

CO<sub>2</sub> per FTE has been consistently reduced

CO<sub>2</sub> per 100m has been consistently reduced
